## drop off meals information

Thank you for considering FOODsmith for these meals! We utilize quality ingredients and time-honored cooking methods to create simple dishes that are rich in flavor. We have tested them to determine that they will work well as drop off dishes. Our drop off meals are delivered cold in disposable containers with heating and assembly instructions.

Our goal is to create memorable meals for you that are as simple and easy for you to prepare as possible!

Please note that our sample drop off menus include both "simple" items that you can enjoy when you want a casual meal in the comforts of your own home, as well as more traditional multi-course meals for those times that you hope to indulge, spoil yourself a little or make an impression upon your guests.

We will assist you in planning a custom drop-off menu, so please view these sample menus merely as inspiration for your meal. We are experienced at creating menus that accommodate your personal preferences and dietary restrictions and exceed your expectations regarding quality. Almost all menu items are available gluten-free, soy-free, grain-free, refined sugar-free, nut-free, etc. Please do not hesitate to inquire about these and other options.
